

**IRRIGATION &
WATER MANAGEMENT
SOLUTIONS**

PROUD DISTRIBUTORS OF:

- Hunter Golf Irrigation as well as Hunter Commercial & Residential Irrigation
- Senninger (Agricultural, Solid Set/Nursery and Greenhouse Irrigation)
- FX Luminaire (Landscape and Architectural Lighting)
- Otterbine Aerators (Aeration systems that treat water above and below the surface of dams, lakes & ponds)

Turfmanzi Irrigation was established in 2000, by then founder Jacobus Freysen, and joined one year later by Kosie Freysen, who prior had two very successful irrigation companies and 18 years experience at the time.

The father and son combination proved to be a hardworking, dedicated and passionate team and over the past 22 years, with the help of loyal and ambitious support staff, have built the company from a contracting business into a multi branded importation and distribution company in Sub Saharan Africa and have successfully completed projects in South Africa, Namibia, Swaziland, Mauritius, Kenya, Zambia and Zimbabwe.

Our irrigation system design expertise includes irrigation systems, pump stations, electrical control panels, water purification plants as well as alternative energy solutions.

The TMI Group pride themselves as an integrated, turnkey irrigation specialist to the Agricultural Market, Residential Estate and Commercial Irrigation market as well as irrigation at sporting facilities. We have built long standing relationships with leading developers, agricultural engineers, landscape architects, civil engineers, landscape contractors and retail outlets.

Our professional services are unparallel as our multiple disciplined teams can assist with consultation, surveys, computerised irrigation designs, project management, system audits, technical support and backup service.

VISION (WHAT DO WE STAND FOR)

Our vision has always been to evolve and upskill ourselves to ensure we keep up with the latest innovation our manufacturing partners have to offer.

By teaming up with the best partners, we are able to offer our clients effective and efficient systems, which are high quality yet affordable.

One aspect of owning an irrigation system is the cost of ownership, which we have managed to successfully reduce, be it water usage or energy consumptions, while offering the longest warranty in the industry. During our long term relationships, we have seen many clients reap the benefits our systems and services have to offer and we are simply delighted that they have put their trust in us.

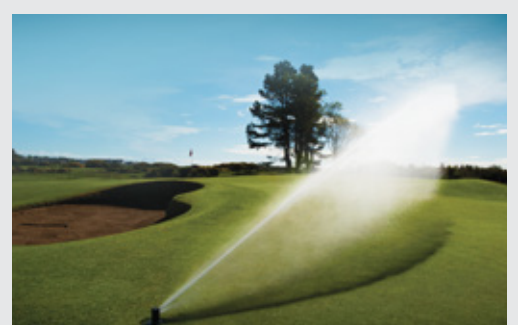

The TMI Group has 2 branches which is centrally located in Stikland, Cape Town and Sandton in Johannesburg. Each branch has dedicated staff who is happy to assist with sales, technical advice as well as irrigation designs.
