- TV will display live leaderboards, a highlights leaderboard & a course analysis summary*

* The viewing cycle will be as follows:

- **180 seconds** cycle in total

- **80 seconds** for ScoreCapture leaderboards (*chosen by the Club*)/showing the Club's website/Club notifications (*Club specials*) - if there are no tournaments for the day

- **50 seconds** for the Club to sell (*x5 10 second adverts*)

- **50 seconds** for ScoreCapture adverts (*x5 10 second adverts*)

- The Club can generate at least **R750** per 10 second advert per screen per month (pays for the entire Premium & Premium Plus Packages)

- The Club content is managed online by the Club, via the ScoreCapture Club Module

HOW IT WORKS

Club creates their own field (*ScoreCapture can assist with imports from Jonas, Club Master & Golfimesa*). Members login on the App on the day & score

OR

Club creates empty field (*round pin is automatically generated*) – QR code & round pin displayed on Clubs' webpage

Individuals login to App, join the field with the round pin/by scanning a QR code & create their 4-ball

Societies within Club create fields (*with their own separate comps if required*)

Club merges all games into one synced leaderboard

Club creates 4-balls & captures scores in "Capture Screen" in the backend for those still using cards

Leaderboard is complete

Scores automatically joined to "FedEx Cup"/"Race to Dubai" events & members can see where they stand immediately

OR

Combination of the above procedures
